The New York Herald Eclipsed. The New York Tribune has lately shown an instance of journalistic enterprise that eclipses the sending of Henderson to Robeson county to interview the outlaws in behalf of the Herald and their friends at the North. Henderson's expedition was merely to pander to the sensational cravings of the public taste, but the enterprise of the Tribune was undertaken in a purely philanthropic spirit and will undoubtedly be productive of much good to one class of unfortunates. The Two Candidates for Governor in South Carolina.

The character of the two Radical nominees for Governor in South Carolina-Moses and Tomlinson-may be gathered from the following speeches in the Convention. First, Tomlinson, who is called the Reform candidate:

prove that the immaculate Tomlinson had State, and traded on his official authority He charged, very vehemently too, that in 1869, in the Legislature of the State, Tomlinson was the champion advocate of the minutes to 4 o'clock, and about three-quarters Atlantic Phosphate Bill, and soon after the of an hour elapsed from that time to complete bill passed that his name appeared on the steamer. books of the Company for \$40,000 worth Sinking Fund Bill, and had received Greenville Railroad property. Still he thought that the gentleman from | washed ashore in a dying condition. Darlington was in a proper place when he advocated reform; it was an evidence of repentance, and he for one was quite wiling to throw the mantle of charity over a repentant criminal. He believed Moses was a better man than either of the candilates named. He further believed that Chamberlain wou'd provide for the pay-

ment of the interest on every dollar of the fraudulent bonds. Elect Moses, and the senator from Darlington would not be in his seat for thirty days, while the Land commission tobbers would be made to disforge their ill-gotten gains. At this juncture Judge Orr propounded question. He desired to know if Judge

Ellio.t called for Mayer, and that individual having been brought in, made his statement confirming what Orr had said. This produced a confusion which bordered very closely on Pardemonium. There were sundry attempts to draw pistels, and the President, as he rapped his gavel on the desk, looked very much as if he would like to have rapped it The Goldsboro' Messenger says: The on the heads of some of the delegates. He (Elliott) knew ersonally that Mayer was for sale. Mayer said that General Moses had sent for him, and at the interview last night, had asked him if he had made up his mind to go for anybody yet? He replied no.-

Moses then asked him if he could control the Barnwell delegation, and told him that he would give him \$2,000 if he would. He then left, promising to return. This brought on another very extensive dition of Pandemonium, and a thousand and one motions were bawled out from a thousand and one stentorian lungs. The upshot of the whole matter was, that a motion was made and carried, to close debate

and take a ballot, which being done, the

result was the nomination of Moses. Here is a brief sketch of Moses: W. E Earle addressed the meeting. He charged F. J. Moses with specific acts of bribery, and offered to let Moses indict for corruption. This challenge he l'ad certificates. The truth is that Moses used Good men consenting to go on Mose's icket cannot save it. If the angel Gabriel were on the ticket he could not prevent Moses from stealing. Put up a good ticket and the masses will support it. Earle showed that the last session of the Legislature had cost twelve hundred and seventy-three thousand dollars, and he appealed to the convention to throw aside Moses and support an honest ticket .-

A eep, dull thud was felt all over the steamer : men and women were aroused from their slum-ber, and some less frightented than the rest rushed on deck, half dressed, and made for the pilot-house to learn the cause of what seemed a collision. The Captain had already made inquiries from the engineers, and the cheering news of "all right" at once allayed the alarm of terror to the stricken crowd. Some returned to their berths, but others not being satisfied with the announcement, or perhaps uneasy to the result, remained on the hurricane deck. The deck hands rushed up and down, warning passengers to look to their life-preservers for the Metis was going down, and there were some whom even the first shock had not awakened, but who, now that the shrieking and hammering had begun, quickly jumped forth to the terrible realization of their peril. The fire, however, gained rapidly and at six o'clock Capt. Maury, fearing an explosion from the powder stored in the hold if he remained by the ship any longer, ordered the six boats to be launched, and the passengers and crew began to embark. At 7:30 Captain Maury was forced to leave the ship, being the last one on board. On of the boats was capsixed after leaving the ship and from seven to ten of the inmates, including two women, were drowned. After sunrise a fresh breeze sprang up. The capsized boat was righted, bailed out and reached Cat Island in safety. The other boats, with one exception, reached Elenthera Island, a distance 150 miles from the scene of the disaster.
